Get it
Get it

You and her
Go better altogether
I like the equation
Minus me
I'm out

The future that we thought
We had come and gone
Is history
You're burned

But I'm a big girl
And I'm gonna do what is best for we
You'll see

You go your way
I'll go mine and it'll be fine

Guess it wasn't enough
For you to say you were the one
Guess it wasn't enough
You had to go be dumb
Guess it wasn't enough
You went and played yourself
Oh, oh
The love I deserve
I'm gonna get it

Cause I had enough
I'm feeling life is the best
Cause I had enough
I'm getting all of me back
Cause I had enough
And you ain't worth all the headaches
Oh, oh
The love I deserve
I'm gonna get it
Get it, get it

Get it, get it, get it
Get it, get it, get it

Get it, get it, get it
Get it, get it, get it

You told you
You had it going through
And the best thing you ever had in us

You burning the hand
It's gone away
Cause you played games
With my trust

I must keep it real
Let you know just how I feel
You're you

You go your way
I'll go mine
It'll be fine

Guess it wasn't enough
For you to say you were the one
Guess it wasn't enough
You had to go be dumb
Guess it wasn't enough
You went and played yourself
Oh, oh
The love I deserve
I'm gonna get it

Cause I had enough
I'm feeling life is the best
Cause I had enough
I'm getting all of me back
Cause I had enough
And you ain't worth all the headaches
Oh, oh
The love I deserve
I'm gonna get it
Get it, get it

Guess I wasn't you know
Guess I wasn't you know
Guess I wasn't you know

Guess I wasn't you know
Guess I wasn't you know

Guess I wasn't you know

Guess it wasn't enough
For you to say you were the one
Guess it wasn't enough
You had to go be dumb
Guess it wasn't enough
You went and played yourself
Oh, oh
The love I deserve
I'm gonna get it

Cause I had enough
I'm feeling life is the best
Cause I had enough
I'm getting all of me back
Cause I had enough
And you ain't worth all the headaches
Oh, oh
The love I deserve
I'm gonna get it
Get it, get it

Get it, get it, get it
Get it, get it, get it

Get it, get it, get it
Get it, get it, get it

Get it, get it, get it
Get it, get it, get it

Get it, get it, get it
Get it, get it, get it

I'm gonna get it baby
