(Chorus)

K-I-N-6-X

Da newest of all these oldschool artists

K-I-N-6-X

When I aim for somethin, i shalt never miss

K-I-N-6-X

Ever look into my eyes, im a really nice guy

K-I-N-6-X

Unless ur hatin, then ill BUST DA EAGLE! LETS RIDE

(Verse 1)

Id pop u wit da eagle, but ur really not worth it

Im exactly like a king, got men to do it for me

U pullin a 9? ask me dats toy heat

I bet you have, fake walkies and a badge

When im done wit u, ull be riches to rags

People ask me, if i think dat im bad

No, i dont think, i know yea and dats that

When the king says over, no more questions are asked

When my council says war, ud better duck fast

More stars in phone than there are in the flag

The X is so great, got a planet named dat

Where else did u think, i got these mad raps

Im supernatural, an alien mane

Im here and im hostile, to any hatin lame

Like i always say, i dont sing for da fame

I sing for respect, its my thirst and my crave

Its like a disease yea, its eatin me away

It'll be in my vains, till my very last day..

(Chorus)

(Verse 2)

Animalistic, crazy, complex

3 out of 9 words dat describe the X

Temper is the 4th, so do not test

If u roll on my ride, bustin windows wit my tech

Id rather use da eagle, but i keep it on my belt

Ahead of my time, call me an aztec

A blue trimmed cape, yea i keep it on my neck

I found da old school, while i was on a treck

I dusted it off, popped it in da tape deck

I listened to new school, thinkin wat da heck?  
I will bring it to da open, anyone i suspect  
Of dissin hind my bak, yea mad disrespect  
Your minds obsolete, like a 2 dollar bill  
Im workin it out, like a military drill  
Im controlin ur mind, just like amittyville  
The things in my mind, u would think are unreal  
No shakin my hand, cuz i do not make deals  
I only make bargans, if i like it, ya dig?

(Chorus)

(Verse 3)

The name is neko, like grand theft auto  
My minds backed up, like a genie in a bottle  
Shake it and open, like a full throttle  
Then turn around, and drink drank drink  
Dont stop till u fill up da tank tank tank  
Im toxic, and under ur sink sink sink  
But im not labeled, im a secret killa  
Like da viet cong, original guerillas  
Im a mercenary, pay me wit vanilla  
Im talkin about, vanilla-nilla ice  
Remember this, every man has his price  
Just gotta take a chance, roll da dice  
Im a oldtime fellow, want some advice?  
If your havin an urge, never ever think twice  
This might be, ur last chance tonight iight? K

(Chorus)

-Ha! ive done it again! yess K I N 6 X, dont u love that? I  
love that jingle yo  
-id like to give a much deserved shout, a much  
deserved shout out to my lil cousin skylar A.K.A skipper  
-Its da X man! Cash Up? haha(echo)
