"Magic Of The Night"

Visit "[Magic Of The Night](#)" on MotoLyrics.com

Passion fills the air !

In the magic of the night, You say everything is gonna
be alright

Your sweet love will keep me warm all night

In the magic of the night

And just as you kiss me, Passion starts to dry my tears

I can't remember why I cried - I can't remember why I
cried

In the magic of the night, In the night made for magic

Passion fills the air, Lust is in your touch

It's in your touch, in your touch

Chorus

In the Magic of the night, night

The night is made for magic, magic

We'll make magic all night, night

The night will be like magic, magic

In the Magic of the night, night

The night is made for magic, magic

La la la la la la la la la la

Passion fills the air, Lust is in your touch

It's in your touch, in your touch

Oh baby you know I love you, because the screams of
passion never lie,

They never lie, no, no

The screams of passion never lie, the screams of
passion never lie

My screams of passion never lie

So don't stop, no, no, no, no, baby

I said don't stop, Never, never, never, never stop

Repeat chorus
