Who else but me? when the world makes you cry (sad)  
It gives you nothing else but tears, who beside you

makes you strong, who else but me ?

You cant be alone in the world, You want a partner in your journey, You become upset, but I make it  
up to you

Who else but me ? When your cold, I warm you with my heart, you sleep I cover you up with my eye  
lashes

And with my love, I will wake you up, who else but me ?

Belive me you cant be without me !  
Half the universe, is me without you,  
all of the universe, me and you

(Eh means yes, but its there to make the song go smoothly)

(Shes saying that he completes her)

Without you, When I was without you my life was, didnt know but what was not avabile..

My heart alone and cold, without you, I didnt find any care  
There was no happiness to cancel out the saddness, I didnt know the taste of safety

Without you, I was forgotten, The world didnt have a place for me  
I didnt feel love in my heart, Without you .. I amm  
I couldnt handle it, without you
