On the move, on the move, on the move,
I'd assume you're with me,
But in the night, in the night, in the night,
I was dying to be free
Jealousy, jealousy, jealousy
I was nervous to be here
See me now, see me now, see me now
I am never down.
And I rode the bus just to be with you,
I rode to city tram just to be near you,
before I saw it all, your number on the floor,
And I had shut you out no ones coming home
Tell me something anything tonight my love,
and tell me something anything tonight, my love.
On the move, on the move, on the move,
I'd assume you're with me,
But in the night, in the night, in the night,
I was dying to be free
Jealousy, jealousy, jealousy
I was nervous to be here
See me now, see me now, see me now
I am never down.
