(Hook)

What are we supposed
To do with this life
How do we know what's right
There is no instruction guide
Can get confusing at times
Are we headed in the right direction
Or do we need a course correction
So many questions inside
What do we do with this life
What do we do with this life

(1st Verse)

From day one
We're brought in this world
With a large task at hand
Try and figure out
Life's bigger plan
What is our meaning and purpose
And what lies beneath the surface
So many signs
What do they mean
And how do we know which ones to read

(Hook)

What are we supposed
To do with this life
How do we know what's right
There is no instruction guide
Can get confusing at times
Are we headed in the right direction
Or do we need a course correction
So many questions inside
What do we do with this life
What do we do with this life
Do with this life
What do we do with this life

(2nd Verse)

How do we know what's right
And how do we know what's wrong
Can we find out

These questions we just don't know
Where do we turn
Where do we go
Or maybe we're not yet
Supposed to know
So for now it stays the same
The infinite question remains

(Hook)

What are we supposed
To do with this life
How do we know what's right
There is no instruction guide
Can get confusing at times
Are we headed in the right direction
Or do we need a course correction
So many questions inside
What do we do with this life
What do we do with this life
