Yes it's another day  
Maybe there's another way to sway left and right  
Tonight we're gonna have fun despite any arguments  
Pardon me since I got the party rocking  
People talking amongst themselves  
Placing me and Thavius on the top of their shelves  
My damn goodness  
She shouldn't of came over  
Crooked looking suspicious  
Sometimes I can get a little vicious when it comes to  
the beat break  
You seek guidance  
I revoke to succeed real estate  
What's classified as keeping it real and feeling great?  
I take it to the next source where the devil waits  
If I continue  
When will you play catch up?  
Don't fall for those type of traps  
Can't you tell it's a setup?  
Get up and move accordingly  
Disorder  
My aura can sort of be  
Off balance  
But the challenge helps you see more of me  
Advance yourself  
And let it justify its own category  
Mind if I adjust the focus?  
None of this at all  
Is really even coded  
If you provoke violence  
I react novice  
In order to complete the science  
I would've exposed it
