You play laser tag with sudden envelopes and candid  
cameras  
cantaloupe  
Frontal lobe microbes until it's dissolved  
Rework angles to evolve status  
Cleansing to the riddle of the puzzle solved  
My timeframe nameless as it seems with no direction  
I recall telephones to teleport your optimized cell-  
shaded nightmares  
My peek-a-boo Pikachu sent lightning bolts  
Threw the kitchen book down twelve flights of stairs  
Rearranged motion left elliptical reseted  
I wasn't there  
It's My Chemical Romance to dance fluid fluidity  
Really milestones to travel gravel  
Now I'm lost  
Walking with no direction  
Either or pretending to phase in and out of reality  
Rapidly tested  
I self intellect reverse to optimize the detailed  
revamped message  
Error occurred  
The simple fact I wasn't concerned  
Tunnel vision enlightened which way the world turns  
The moment the last wishing well drowns Tinkerbell  
Felt the bitter Bible Belt drop kicks to the chest pain  
Whispered then dealt with it  
Its transparency  
A movement less captured  
Seldom I do Dillinger digital different aspect of  
articulating grammar  
Man if I could bend space and time  
You could adapt to a place like mine  
Euphoric  
Only I hover so low velocity  
Believe it or not once the temperature bubble boiled  
It spoiled my day  
With every breath I take an earthquake takes place  
Maybe if I was to belittle myself in the sense of making  
me laugh  
Baffled integrity inside of the isolated Rubik's Cube  
chess move

Who do I blame first?  
I know it wasn't you  
But you and yours truly couldn't continue arguing about  
each other's  
menu  
What did I order?  
Maybe an extra shipment of brain cells shaded in poly-  
ocular  
capacitors  
Playing Jumpin' Jack Flash Gordon  
With neural glitching bypassing neurons  
No excuse morons  
This is used to stimulate ideology  
Centered around Space Invader attributes more gone  
It just wasn't my daydream turned to nightmares  
It all comes down to the final breath I take
