The sunlight is looking over the horizon  
Why is it when literature could be spoken in a way  
It could simplify where I thought to begin  
Accumulate how many days to develop ways to  
increase envelope  
Didn't come across as anything to ruin any hope  
Mope around  
Soldier down  
Another one dead for no reason  
Can you believe it's coming from this sound?  
An upside down frown turned into a pronoun  
A verb into an adjective  
A vision in a moment with more rounds  
Loquacious enough  
Backspace to place this stuff  
To disintegrate lust  
Not like us to involve ourselves in second place  
Stick to what you're doing best and please get out my  
face  
You laced the rhythm with complete synergy  
The further I go into my career  
My friends become my enemies  
Believe me there's only one direction to go and that's  
moving forward  
Hit record and I'll make sure you see more of this  
I think it fits you well  
But I couldn't tell until trying it  
Buying it for premium price on sale  
The average stale content weighed not enough for this  
scale to  
consider a threat  
I didn't forget the Etch-A-Sketch yet  
Thinking  
What are you thinking?  
I could've used that elbowroom and breathing space  
this evening

My life at time matters  
No need for shattering my glass world  
What's embellished  
Cherish it as if it was your girl  
My life at time matters

No need for shattering my glass world  
What you say?  
I mustn't obey  
That was really absurd  
My life at time matters  
No need for shattering my glass world  
We're total opposites but I consider you a pearl  
My life at time matters  
No need for shattering my glass world  
Enter at your own risk  
Risking becoming part of my world

We attempted  
They meant to organize it in a way that we can all profit  
from it  
Minor consideration to see what the problem is here  
No atmosphere  
Couldn't land your hovercraft in here  
Or even last year  
In my life  
I've seen everything  
A dream  
Poverty  
No excuses to remain the next thing  
And if there's anything new to bring to the table  
I'll make sure that it isn't illusive and that it can remain  
stable  
Were you able to finally figure it out?  
I doubt you even know what I'm talking about  
This story could really go on and on  
From the beginning to the end  
Back to the beginning of this song

My life at time matters  
No need for shattering my glass world  
What's embellished  
Cherish it as if it was your girl  
My life at time matters  
No need for shattering my glass world  
What you say?  
I mustn't obey  
That was really absurd  
My life at time matters  
No need for shattering my glass world
