Situations tend to shift motion  
Focus in closer to the open high-hat  
Simulated in fact  
The locust swarms in  
Then there we begin  
Justice to justify us  
No fighting leading to fuss and cuss words  
Must I rebuttal huddled antidotes?  
Most valued nerd  
Isotope cut off  
Get lost  
I seen it better without the microscope  
Groped noted ping pong X and Y axis  
Check out what I wrote  
My latest fashion statement  
That led me quickly to the mattress  
Never trendy Mandy  
Handy purple people eater  
Retreat it  
Leave It To Beaver  
I didn't need her either  
Now she's gone  
If there was a song to sing along  
It might include the words that refer to the essence of  
hold on  
You're gone girl  
Kiss me goodnight  
Without it  
Wouldn't be right from wrong  
This place is mine  
I might have listened  
If it didn't blister  
Incorrect nature  
You were planning to respect the chase  
I expected the nectar  
Lectured simple  
La la la and bye bye bye  
Good riddance  
I finally disappeared

I just left this place  
Did you regret it as much as I do?

I couldn't tell if it was the same for you  
But sometimes I even think that's true

I'm sick to my stomach and I feel like I'm about to vomit  
Correct me if I was meant to attend Hailey's Comet  
No comet comment concurred referred validating  
maintenance  
It hasn't been the same since  
Before the bulldozer moved over the hands of time to  
obtain  
You couldn't look under a rock to find history of my  
name  
Panic disorderly  
Stressed for no reason  
Leaving the gate open for failure to intrude rude  
behavior  
No one was planning to be your savior  
If that couldn't work then there really isn't anything  
What else can I say?  
Moving in triplets  
A source of sequence delay  
Life is what you make of it you idiot  
Cry me a riverbank  
Empty tank polluted  
With devil sticks to the chest  
Rest in peace  
Isolated  
You're tempting me to intrude the interlude

I just left this place  
Did you regret it as much as I do?  
I couldn't tell if it was the same for you  
But sometimes I even think that's true
