(Thavius Beck)

Here's an artifact for modern artists' pre-apocalypse  
Shit to stimulate your conscious state and shake the  
continents

It's the opposition of the ominous who lust for  
dominance

And the definition of cognition mixed with confidence  
Common sense incompetence composed within this  
document

A message for the audience with a mass of multiple  
major monuments

Sound is a conduit

One speaks and one responds to it

If the signal fluctuates you could identify it as  
fraudulent

Merely an imitation of the prominent percussion based  
philosophy

Phenomen-anomaly

Pure quality

Infinite quantity

Quantized on a time that's quantum sized

Probably it's too subtle for receptors to recognize this  
record's

oddities

Now on with the general genre

That's music we generate constantly

Minimal distraction equals action automatically

Both uniform and erratically

Extremes of a medium push beyond maximum  
capacity

Gradually crushing the threshold of your anatomy

Sound intake level

It's on the level

No revoking the mission to your confidence

Only lessons learning

Earning the obvious

Minor threats

Frightened by my dominance

Arrogance and ignorance

Concluded with bars that scars the devious

Mediate with war cries

With more lies  
Why try to nosedive?  
Me and Thavius are more live  
Besides my words don't mean nothing  
Unless it goes along with a well conducted arpeggio to  
play something  
This isn't a game so let's set it straight  
Demonstrate what it takes  
I gotta get it corrected before it's way too late  
Couldn't relate  
Stated out for lunch  
An over-sized uppercut approaching  
Watch for the punch  
Didn't mean to sound rude  
Intrude  
Anger is the next fuse I've chosen to elude  
I relate  
Time for some action  
While you wait  
I've already validated the next reaction
