Commandeer airwave

X amounts of seconds

Check it

If the future beckons

It's just monumental message lessons

Say that they don't want you 'til they need you

That's the method

But the people that will miss it

They must lack the ethics

If I'm just an acquisition then you'll pay for it with leverage

And a forest full of paperwork and when I'm done severance

Viva LA county

It's a textbook crevice

Once again I'm way irreverent

With this stay-low halo on me

Now I'm up in Omni

Scientific American

Wired

I'm on fire

Server turbine McGuyver

Everyday I wake up and it's like I'm on Survivor

On the island of the exile

Yeah and I'm stylin'

Like Lazarus

I'm liver with some biblical profiling

Swaddling cloth all attire

Emperor for-hire

Like Serpentor or Marlo Stanfield up on the Wire

My time period made me

A myriad of straits

Wait

Go

Let it flow

No more dough to spend

The night mustn't end until I'm leaving with a friend

By friend I mean girl

Why don't you enter my world?

So we could turn it

Twerk it
I'm watching your body move
It's so perfect
It's worth it to watch
Let the rhythm never stop
Centered around when your booty drops
The night starts off late
Let's see how many renditions of moving the crowd I
create
I didn't hesitate to approach the next female in need
Proven fact
We proceed and deliver with reasoning
So take heed
These days dissipate
Enjoy it while you can
Couldn't really explain the common state
Wait and listen
Give it another chance
I'll continue to elevate
While establishing the vertical stance I alleviate
Get it straight
No more time to accumulate promised income
This marks the second coming of my revamped
wisdom
