If you should catch me crying as the day begins
But beneath my tears there's a strange kind of glow
And a silly little grin

Well think nothing of it
I'm just in love and I love it
I'm just in love and I love it
I'm just in love and I love it
Baby, baby look at me
Baby, baby can't you see
I'm just in love

If you should catch me laughing on a rainy day
Catching raindrops on the tip of my tongue
Like a little child at play

Well think nothing of it
I'm just in love and I love it
I'm just in love and I love it
I'm just in love and I love it
Baby, baby look at me
Baby, baby can't you see
I'm just in love
