(hoh baby, hoh-hoh baby)

(hoh baby, hoh-hoh baby)

[Verse 1]

Cowgirl, cowgirl why'd you leave me high and dry

You had a heart but then you put a hole in mine

[Bridge]

(Listen, I wanna break down

You don't understand the damage you've done now

Let me remind you that)

I had a heart and you came inside

Turned the whole place upside

[Chorus]

Dow'own; out of my mind

Rocking chair, mental asylum

Everyone dressed in white

I really think I lost it this time

Yeahy yeah, I wanna break down

You don't understand the damage you've done now

Let me remind you that boys don't cry

Isn't it clear that I need treatment

(hoh baby, hoh-hoh baby)

(hoh baby, hoh-hoh baby)

[Verse 1]

All day, all night, see I could go from dusk till dawn

(Whoooa whoa)

Thinking about how you left me crushed and torn

(Whoooa whoa)

[Bridge]

(I wanna break down (Come on)

You don't understand the damage you've done now

(Come on)

Let me remind you that)

I had a heart and you came inside

Turned the whole place upside

[Chorus]

Dow'own; out of my mind

Rocking chair, mental asylum

Everyone dressed in white

I really think I lost it this time

Yeahy yeah, I wanna break down (Come on)

You don't understand the damage you've done now

(Come on)

Let me remind you that boys don't cry
Isn't it clear that I need treatment
[Middle-8]
Cuz I'm insane in the membrane, so crazy you made
me yeah
Insane in the membrane, look what you created
And I'm insane in the membrane, so crazy you made
me yeah
Insane in the membrane, look what you created
{Etta Bond:
Ply into, the gap
A never ending...}
Look what you did, hoooooh hoooooh {Ply into, the
gap}
Look what you did {Ply into}, my baby oh no
Isn't it clear that I,
Need Treatment
Treatment
Heeey eheyeah, I need treatment
[Chorus]
(Whooh) out of my mind (out of my mind)
Rocking chair, mental asylum (asylum)
Everyone dressed in white (dressed in white)
I really think I lost it this time (I really think I lost it this
time)
Yeahy yeah, I wanna break down (break down)
You don't understand the damage you've done now
(understand the damage you've done now)
Let me remind you that boys don't cry (ooo don't cry)
Isn't it clear that I (clear that I) need treatment
