You'd do anything just to get inside  
you make me sick to my gut  
but Ive got yours right here  
im the sum of all your fears  
how does the dirt feel  
so warm so rough  
so deep in the ground  
Ive got yours right here  
the sum of all your fears  
was it worth it at the time  
ill make you wish you didn't  
theres no going back now  
cuz im the sum of all your fears  
Fuck you bitch  
you're just as guilty  
i know the time will fucking come again  
you'll try and use me  
and ill be waiting
