Justifying your existence
as easy as it's ever been
laughing failed of being blue
autumn's brown and summer's green
I don't mind and I don't care
nothing to win, nothing to dare
who is guilty ? what's been done ?
"Es gibt etwas was keiner kann !"
Autumn's brown and summer's green
as easy as it's ever been
Simplifying human nature
turning points are still to come
doctrines are redundant now
history will tell us how
Leave behind these social frames
waiting just for better days
what is near ? what is far ?
"Nichts ist noch so wie es mal war !"
