

## **Albert Hammond, Jr. "Hard To Live In The City"**

Visit "[Hard To Live In The City](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Well, it's hard to live, it's hard to live in the city  
Yes, it's hard to live, so hard to live in the city

I've been following you for blocks  
And I wish that you would stop and tell me your name  
But I couldn't understand  
What you told me as you ran away

So just lay your head down low  
Don't let anybody know  
That it's hard to live, it's hard to live in the city  
Yes, it's hard to live, it's hard to live in the city

There's something about you that I couldn't tell  
And you were always crazy and I didn't like that  
There's something about you that I knew so well

To all those questions, I have no answers  
I wish that I could sit in the sun

So just lay your head down low  
Don't let anybody know  
That it's hard to live, it's hard to live in the city  
Yes, it's hard to live, so hard to live in the city

What are you asking? No need for walking out  
You took all I could keep  
You couldn't even tell me, the look was on you face  
I'll think that we have left

To all those questions, I have no answers  
I wish that I could sit in the sun
