You're near, that moment's here
I'm almost in your arms
Tonight, the mood is right
I'm almost in your arms

One sigh, one word and I will rush to your embrace
Say that certain word, sigh that certain sigh
And with all my heart, to your arms I'll fly

It's strange how we are changed
By things that seemed so small
One look can write a book
One touch can say it all

We've known those nights alone
And now we've found our way

I'm almost in your arms, almost in your arms
Almost in your arms, almost in your arms

You're near, that moment's here
I'm almost in your arms
Tonight, the mood is right
I'm almost in your arms

One sigh, one word and I will rush to your embrace
Say that certain word, sigh that certain sigh
And with all my heart, to your arms I'll fly

It's strange how we are changed
By things that seemed so small
One look can write a book
One touch can say it all

We've known those nights alone
And now we've found our way

I'm almost in your arms, I'm nearly in
your arms
Almost in your arms, I'm nearly in your arms
Almost in your arms today
