I promise this time I won't cry cry cry  
Cause being with you was so fly fly fly  
Let's keep it as a sweet memory  
You'll always be in my hart, you'll see  
And baby you're not what I need need need  
But when we touch I feel the heat heat heat  
And we both know what we shouldn't do  
But I can't stay away from you.

(Chorus)

Oh, baby here we go again  
Baby here we go again  
We both know what we shouldn't do  
But I can't stay away from you

I like you baby, you like me me me  
Let's have fun and just be happy  
And when I find somebody new new new  
You'll still be my baby yes, it's true  
Don't you worry baby you'll be fine  
You'll always be in this hart of mine  
They all tell us what we have to do  
But I can't stay away from you

(pajpapow â€¡ohhh â€¡)

Yes sir, we had such a nice nice time  
The sun was shining, we were doing fine  
Oh, I love spending time with you  
Even if today makes me blue  
And in the evening when the sun goes down  
Just remember that I'll be around  
I know you'll get there if you really try  
Hope you'll find your way some day some how

Chorus 2x
