Take me home

Sometimes I walk into places
And can't believe the faces
Of everyone around me
What have I become?

The road seems long and dreary
And you were there
You were near me
Now where did you go?
You packed your bags you're gone

Take me home
I wanna go home

You wouldn't believe
The ten years I spent here
I grew up within these halls
Within these main street walls

H-O-M-E
I wanna go home
H-O-M-E
Take me home
