"It Gets Me"

It's not the moments that we share
It's the thought that you won't be there
That gets me (Girl)

It's not the clothes that you wear
Not the ribbons in your hair
That get me

It's the way you make my heart feel
When you're away
That gets me

Michigan was getting cold
The leaves grew old
You kissed me
It's not the thought of being bored
Or even being ignored
That gets me (Girl)

It's not the fear of being lost
It's the fear of losing
That gets me
It's not the hopes and dreams

I placed in you
