

La Strada "Mean That Much"

Visit "[Mean That Much](#)" on MotoLyrics.com

but i wish it would take me down

and the stars up above
you say they're made with love love love
but they don't mean that much to me

and the ground beneath me
and the people beside me
well they don't mean that much to me

heaven and hell
i guess i wish them well
but they don't mean that much to me

and the sun in the sky
it doesn't mean that much
but i wish it would shine on me
and the sun in the sky
it doesn't mean that much
but i wish it would shine on me

and the moon overhead
it doesn't mean that much
but i wish it could shine on me

and the eastern wind
it doesn't mean that much
but i wish it would breathe with me

and the great big sea
it doesn't mean that much
