Visit "[My Ocean](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Late at night I thought of all  
The things we used to share  
The times we shared were beautiful  
I never can forget  
How you told me we were wasting time  
Pretending we're in love  
But hold on to the thought that love's  
Exactly what it was

[CHORUS]

'Cause I still believe that you are my ocean  
I sailed many seas but the tide was too strong  
So never let the thought of me  
Go chasing out your mind  
'Cause I still believe in you and me

I remember like it was yesterday  
That you said goodbye  
Can't forget the note you left for me  
How I tried not to cry  
How you said that we would always be  
Said that you were mine  
Was it something that I said or did  
That made you change your mind

[CHORUS]

No, I never can forget that  
Oh, you were the only one to make me feel  
That what you said was really real  
So please come back and claim what's really yours

[CHORUS]
