Stephanie:

Doo doo doo doo doo doo doo
Doo doo doo doo doo doo doo

Look up to the skies
Watch our rocket rise
Past the clouds it flies
And reaches for the stars

Prepare for the race
Then we'll take a trip
Right to outer space

Doo doo doo doo doo doo doo
Who knows what we might see

Doo doo doo doo doo doo doo
Out in the galaxy

Doo doo doo doo doo doo doo
Hang on we'll be there soon

Doo doo doo doo doo doo doo
We'll meet the man in the moon

We'll be the first to go
And maybe say hello
To aliens that glow
On Jupiter and Mars

Prepare for the race
Then we'll take a trip
Right to outer space
(Trip right to outer space)

Doo doo doo doo doo doo doo
Who knows what we might see

Doo doo doo doo doo doo doo
Out in the galaxy

Doo doo doo doo doo doo doo
Hang on we'll be there soon

Doo doo doo doo doo doo doo

(8, 7, 6, 5, 4, 3, 2, 1 - Lift-off!)

Doo doo doo doo doo doo doo
We'll play with the satellites

Doo doo doo doo doo doo doo
Race past the northern lights

Doo doo doo doo doo doo doo
Hang on we'll be there soon

Doo doo doo doo doo doo doo
Maybe land on the moon

Take a trip into outer space!
