"Good Stuff"

Visit "[Good Stuff](#)" on MotoLyrics.com

What goes up must come down, people always tell me.
But if you put a seed in the ground, you'll see what
goes down must come up.
What goes down, comes up.

When things start to grow, good stuff starts to flow.

Its the good stuff, its the energy.
We're growing good stuff, its the remedy.
We're growing good stuff, the best things in life are
free.

Plant what you want to grow, good stuff starts to flow.

Its the good stuff, its the energy.
We're growing good stuff, its the remedy.
We're growing good stuff, the best things in life are
free.

Good stuff, we're growing good stuff.
