Stephanie:

Make a plan, follow through
Choose your color, red or blue

Trixie:

Use your brain and your skills
Then you'll start to build

Stephanie:

Watch it grow before your eyes
Your dreams will be alive

Both:

Step by step
It will come into view
You know you're gonna
Make your dream come true

Step by step
It's all up to you
Then pretty soon
You'll show the whole wide world
You made something new

Stephanie:

Cut it once but measure twice
It always pays to be precise

Trixie:

Grab a nail, a hammer too
Gather up your tools

Stephanie:

Give your best from the heart

You'll make a work of art

Both:

Step by step
It will come into view
You know you're gonna
Make your dream come true

Woah, step by step
It's all up to you
Then pretty soon
You'll show the whole wide world
You made something new

La la la la la la la la
Woo!

Step by step
It's all up to you
Then pretty soon
You'll show the whole wide world
You made something new
