"Christening Of The Blind"

Inbred expectations in a belt of social security
Free thought demolished
Generation stereotyped clash
Traditional values abolished

Outcries from the blind converted
Mentally shocked
Their forcified vision
Shies away from reality finally blocked

Majority overweigh the scale of balance
Secrets hidden, sin after sin in their eyes
Majority overweigh the scales of balance
Secrets hidden, sin after sin in their eyes

Understanding is now too late
Utopia is banished
The very moral trusted in
Have brought demise, demise

Religion, love, compassion
Confuse the truth with lies
Traditions to be changed
Accept the inevitable

Forget the narrow mindedness
To create a new paradise
