Capitalism, racism, sexism  
The foundations of cock-rocking idealism  
Exploiting, sucking, manipulating  
The wisdom of a starry-eyed nation  
Making "idols" out of assholes  
"Raunchy" "hunky" machismo type fools  
"Who cares if they've got no brains.  
Just give us tits and tools!"  
Fantasy? Reality?  
Distinction? Satisfaction?  
We love it when you feed us shit  
We're so stuck in our dreamworld  
Let's forget all your problems  
And get into the groove!!  
Fantasy? Reality?  
Distinction? Satisfaction?!?
