Normal?  
Run-of-the-mill?  
Compos fucking mentis  
Wholesome to a fault

Flawless?  
Picture-perfect?  
Lose the quirk  
- Escape a life-sentence  
From disfigurement be spared

Errors in the signals  
[Off gender]  
Errors in the signals  
[Down-and-outer]

Beside yourself  
By the very shadow you cast  
Clawing at the vapid pseudo-love  
Called 'respect'

Errors in the signals  
[No aberrations]  
Errors in the signals  
[Moral fail-safes]

Couldn't flee much quicker  
From the adolescent (in you)  
Clawing at the vapid pseudo-love  
Called 'respect'

Errors in the signals
