What I see is what I be  
I shall point creel in body in torture  
And for what's and for what's?

What I see is what I be  
I shall point beat in body in torture  
Dared the shredded time

Down come to be  
Down come to be, wells afford  
And for what's, and for what's?

And find my mind tram intent  
The deep, the scale to what the truth  
A mind part my strong intent  
To deep, the scale to what the truth

Awake in fume of this hypocrite chum  
Brake turned glance with pieces of  
I am broken man, prop me here  
Prop me here or let me go

Awake in fume of this hypocrite chum  
Brake turned glance with pieces  
Thrown the barrow of broken man

To here I am, you chop me out for getting mind  
I gave you mind, prop me here  
Prop me here or let me go
