Scars dig deep they bleed seeds  
Within wounds I feed  
The pools of life drain fast  
To quench my anger

Selfish, isolating, persecution  
Conquered nothing  
Reckless, stupidity, hereditary  
Achievement stunted

Forced to fear, forced to fear, forced to fear

Thoughts cut hard, they burn numb  
Perhaps all is done?  
Has a piece of me been carved  
To feed my hunger?

Selfish, isolating, persecution  
Conquered nothing  
Reckless, stupidity, hereditary  
Achievement stunted

Got to crack the mold before it sets  
Escapist passion seems to be  
The only way I really feel  
The social lair that we infest  
Is pushing me towards the edge

Forced to fear the force of fear  
For the first time in my life

Reached inside my heart  
Took what's pure and turned it sour  
Course lines map my fear  
The roots are soulless draining tears

Forced to fear the force of fear  
For the first time in my life

The course is clear in what I fear  
An epitaph of apathy

Scavengers to the carnage  
The scars remain but putrefy  
Caught in rage, caught in rage  
Caught in rage, caught in rage

Predators sense the weakness  
Swarm like flies to pick my bones  
Caught in rage, caught in rage  
Caught in rage, caught in rage

Forced to fear the force of fear  
Forced to fear the force of fear  
Forced to fear the force of fear  
Forced to fear the force of fear
