Female subservience

To impervious male dominance

Male subservience to the cuntries' defence

It's a mans world

So you'd better act like one!

God give me strength

Women suck my length

"enemy" do you have the balls

To challenge my masculinity?

Just discard your sensitivity

And you'll play the part well.

Cunt-born some more

To be big and strong like daddy

Drill them to perpetuate

Into the ultimate form of stupidity.
