Shane embury

I dissolve to a dream of the past
Terminate. to remove. falling fast.

At the end of the chain thoughts collect
Execute. a degree. I defect.

What's it worth ?
Sacrifice the earth. it bleeds.
Meet your needs.
Devilish deeds.

Reconcile. understood. contemplate.
Desecrate. to denounce. detonate.
Tentative. to reject. overdue.
Final stage. tocomplete. follw through.

Far too late.
Absolute hell ? this hell.
An empty shell.
Desolate cells.

A necessary evil ? bargaining pleas.
Held at ransom ? our souls diseased.
A necessary evil ? the dominant role.
There's no escape ? you crossed the solitary line.
