(SIEGE)  
Walls that part humanity  
Over which I cannot see  
Walls as old as history  
Cast a shadow over me  
Break down the walls  
Take down them all  
Break down the  
Take down the  
Shake down the  
Walls that divide the nations  
Keep them in isolation  
Segregate the populations  
Beat down the opposition  
Break down the walls  
Take down thm all  
Break down the  
Take down the  
Shake down the  
Barriers that divide  
Trapping me inside  
Bring apartheid to an end  
Cross the border  
Make a friend  
Break down the walls  
Take down them all  
Break down the  
Take down the  
Shake down the walls
