Well there was a time
that time when you were mine
it was fun but they all said
"too young too young"
& I was alone
Don't sit right for the phone
You didn't call
Your dissed
I didn't wait for you

You didn't see us together
But I saw forever

And now
what your doing to find me
I know Your tryin to remind me
How low
I'll feel without you but from the get go
I'm doing it to
I'm doing it to you
I'm doing it to you
I'm doing it to you

Now I'm on the line
connected to your crime in the sun
I heard she is a big fan, good tan
And you made me feel
I never knew the deal
you told me from day one that I was
too young, too young
