Ooh yeah yeah  
I've never lost my mind  
Trying to figure out a way  
To make you understand  
I cant go on another day

Maybe I was wrong  
Been confused to let it stray  
Just give me one more chance  
'Cause i can't take what's happening.

Have you ever lost someone  
Trying take it back but the damage is done  
Thought of losing you makes me feel so sad  
How am I gonna sleep when I feel this bad

I know enough's enough  
It's gonna be tough to get through this

[Chorus]  
I'll never be perfect  
I'll never be cool  
I'll always be nothing  
Unless I have you  
'Cause you make me perfect  
tell me what can I do  
The pieces are missing  
Cause I'm not with you  
You make me oohâ€¦.  
Oohâ€¦. You make me  
Oohâ€¦.ooh You make me

I know that I deserve it  
But have you really lost all faith  
You know inside we're worth it  
There's so much left for us to say

Maybe I was lost  
Or maybe I was just afraid  
Can you just forgive me?  
And hold me in your arms again!

Have you ever lost someone  
Trying take it back but the damage is done  
Thought of losing you makes me feel so sad  
How am I gonna sleep when I feel this bad

I know enough's enough  
It's gonna be tough to get through this

[Chorus]  
I'll never be perfect  
I'll never be cool  
I'll always be nothing  
Unless I have you  
'Cause you make me perfect  
tell me what can I do  
The pieces are missing  
Cause I'm not with you  
You make me oohâ€¦.  
Oohâ€¦. You make me  
Oohâ€¦.ooh you make me

Nothing's perfect cause it isn't you  
Everything I need is here with you  
Everything I see is clear with you  
Everything I dream appears with you  
Everything could be soo..  
Perfect  
Perfect, babe,  
Perfect, Baby..

Have you ever lost someone  
Have you ever lost someone

[Chorus]  
I'll never be perfect  
I'll never be cool  
I'll always be nothing  
Unless I have you  
I'll never be perfect  
I'll never be cool  
I'll always be nothing  
Unless I have you  
I'll never be perfect
