Judging by your pauses on the phone  
What's left unsaid is better left  
Maybe we'd be better off alone  
The way we used to feel, it only comes and goes

It comes and goes  
It comes and goes  
It comes and goes  
It comes and goes

It comes and goes  
It comes and goes  
It comes and goes  
It comes and goes

In the middle of the night I'm pleading  
And I know that you're not really sleeping  
By the half light of the dawn I'm seething  
Counting every minute until you're leaving

You come and go  
You come and go  
You come and go  
You come and go

You come and go  
You come and go  
You come and go  
You come and go

At least we used to care enough to shout  
Now we'd rather have our peace than have it out  
Uncertainty's been swallowed up by doubt  
I guess, this is what my folks were always sighing  
about

It comes and goes  
It comes and goes  
It comes and goes  
It comes and goes

It comes and goes

It comes and goes  
It comes and goes  
It comes and goes

You come and go  
You come and go  
You come and go  
You come and go

You come and go  
You come and go  
You come and go  
You come and go
