I want some insomnia  
Who's got that insomnia?  
I'm just a hired hand,  
My watch has it's demands.

I want some overdrive  
Who's got that overdrive?  
The breaks are broken  
but the gas works fine,  
I'm working overtime.

Keep your head up,  
We'll work faster.  
Keep your sweat up,  
We're your masters.

We've got boxes,  
We've got buttons.  
Speed and soda,  
we're all gluttons.

The landing party missed  
it's check in call.  
They're coming late,  
or not at all.  
The captain opened up the alcohol.  
Some think it's bright.  
Some think it's bleak.  
We tried to stay drunk for  
the first seven weeks.

We've been sleeping  
with our shoes on  
For much too long.

We've been sleeping  
with our bags packed  
For much too long.
