Any way the wind may blow
Any way the creek may flow
Any way the crow may fly
Within the confines of the sky
I will prove my love to you
In everything I say and in all I do

Anywhere the song is king
Anywhere the robin sings
Anywhere the lake is cold
Anywhere the bell is tolled
I will prove my love to you
In everything I say and in all I do

Anytime our paths don't cross
And the losin' dice are tossed
Anytime you know what's best
Anytime I can't care less
I'll make it up to you
In everything I say and in all I do

Any way the wind may blow
Any way I stub my toe
Any way the tree might bend
Any way the day might end
I will prove my love to you
In everything I say and in all I do
I will make it up to you
In everything I say and in all I do
