Sitting by this light, [Incomprehensible]
Just watch where you're going
[Incomprehensible]
Just watch out, now don't get hit

Even though I seem hungry like a wolf
This wasn't my dream
But everyday keeps getting better
We only look, we ain't crazy like a fox
Things aren't how they seem, right?

It's all fair game anyway
It's all fair game anyway

Just fifteen and bit immoral
Firstly optimistic bottle
One big family, what's that, darling?
Who says family doesn't kiss?

Oh, every game's a bit incestuous
It's just a game and
Yes, you know the rules, you can't get help
We're all the same, a bit tempestuous
But we're just restless, right?

It's all fair game anyway
It's all fair game when you play

Have you got the heart and have you got the guts?
It's not a sport but
Who says I should be so boring?
We find your rules a bit extraneous
We leave you breathless, right?

It's all fair game anyway
It's all fair game anyway
It's all fair game when you play
The rules are strange but aren't they great?
