I put a wager on uncertainty  
It's funny when you wager how you feel  
I hit the breaking point  
Then broke on through  
I'm never certain when it comes to you

Once things look up  
I come falling down  
Too deep to take a step  
And look around  
Once things look up  
I come falling down

I bottle up the pieces  
(and repair)  
But every time we break  
I'm building still  
Stand back and marvel at what we have made  
It's hard to notice when you run away

Once things look up  
I come falling down  
Too deep to take a step  
I'm buried now

Once things look up  
I come falling down

Wouldn't it nice  
If we could both be right  
So we could go to bed each day  
Without a single fight  
And we would be alright  
And you could say goodnight  
Instead of just  
Goodbye goodbye goodbye goodbye goodbye

Ah...

Once you look up  
Sun will hide your frowns  
Too light to see the dark

So hidden now

Once things look up  
I come falling down  
I try and nothing's there  
Behind the clouds  
Ah..

Once I look up  
All comes falling down
