

Nappy Roots "Roll Again"

Visit "[Roll Again](#)" on [MotoLyrics.com](#)

Niggaz was goin' crazy with me, it was our first video,
nigga
You know we was gone' come back to the country road
I don't know, yea, y'all, y'all ready to roll again?
Wuss up, let's ride then, ah, yup, hit 'em

Way before platinum there was a place we used to go
And ride for hours at a time on a country road
Whatever's troublin', you can let it go
I get out of the car and walk through it, visit the river
and talk to it

Simply sayin', "Mr. Water, what is it that you runnin'
from?"
Asked the bird in the tree, "What is it that you hummin'
for?"
Now knowin' why the caged bird sings is wishin' to be
free
Reminded myself of life and it's hold on me

Touring, the children, women, sexual resistance
Religion means so much to me, the church don't see
enough of me
This way, that way, bendin' corners tryin' to get away
Sometimes you have to see a storm to appreciate a
pretty day

Back in the car now, headed for the liquor store
God, what a vivid scene, diggin' what I just seen
Rolled up another one, still in a daze though
Gassed up at the Mini mart my mind on the country
roads

I just wanna go on the country roads
And get blowed on the country roads again
Roll, been on the country roads again

I just wanna go on the country roads
And get blowed on the country roads again
Roll, been on the country roads again

Yo, we off in these backwoods caddy hoggin', nappy

dang, ain't no joke
We glad they robbin' rap imposers for they problem no
hope
It's cutthroat, we hungry starvin', chargin' for the front
do'
You want mo'? We smoke and sparkin', jokers like the
blunt go

Been shovin' folk for plenty miles, yes, I'm the type to
grin and bear it
The second chance and out the box, I'm back again
with 'dro and spirits
Look at me now, I found a spot, I'm down here by that
rollin' river
Grab a rose and took me to a place, au revoir, I'm
rollin' scriptures

Man these country roads makin' me zone out
Ridin' through all the bullshit that poppa would scold
'bout
But soon as my hustle got good I showed out
Quick to jump, I, 24, come back with plenty mo'

By '97 I was smokin' perfecto
The chains and the Willie Esco was the dresscode
We lost our littlest cousin Gwin, a skidrow
Tony Renfrow, rest in peace your kinfolks, I miss y'all

I just wanna go on the country roads
And get blowed on the country roads again
Roll, been on the country roads again

I just wanna go on the country roads
And get blowed on the country roads again
Roll, been on the country roads again

Dude what the hell are we doin'?
Back deep on these country roads blowin', gettin' in
touch with my mind
No worries just striped lines and curve filled signs
When all the events throughout the day, good or bad
somehow rewind
While I recline in my Cadillac seats

Hit the trees and press repeat
And let the melody of these windy roads keep my soul
upbeat
No destination proposed
Just ridin' these country roads

Listen, this killer's that's willin' to catch a court case

Split your wig apart quicker than the divorce rate
Niggaz show out, go wild in the corpse cage
Blow out in the news and I don't mean the sports page
Get drowned in North Lake, could get found in horse
cave

Fool, get down, the boy's crazy
Lil' Stille's with ambition, itchin' to fill my position
Replace me but by the Lord's grace still existin'

Should be in depression, Latrill is missin', cousins in
prison
Heard Little Ricky was snitchin', now he's a born again
Christian
Always had my suspicions, our teens with bad
addictions
Family members gone overseas on a mission, we miss
'em

See you can travel straight through two different
coasts
State to state, navigate this beautiful globe
In search of a plate full of food for the soul
I could taste it when the smoke hit my nose
On a place called country roads

I just wanna go on the country roads
And get blowed on the country roads again
Roll, been on the country roads again

I just wanna go on the country roads
And get blowed on the country roads again
Roll, been on the country roads again

[Incomprehensible]
