So I hopped my ass over to see if I was convinced
Fast-paced city life, but country livin's the sense
Man, I copped me a Caddy said "to Hell wit' a Benz"
Benz, Benz, twenty-inch rims
I can't leave the verti-cal grill at the back of the ranch
Got a phat farm with cows and a whole lotta land
20 acres to my name son we ain't been there

[Verse Two - B. Stille]

Meanwhile up in the D where they hollowin up dope
Thugs blow weed in the park where the club close
In Milwaukee the beats is petro, off in DC the streets is
ghetto
Let's roll to Cali where they chief the best 'dro
and drive cars so big you can't reach the pedals
Never had a glass of purple juice for breakfast
until I took my ass to Houston, Teaxs (thats country!)

Worldwide drop, weather's bueno
They say opposites attract, I'm a moreno

Shy girl all she wanted to do was fuck and cum
Top of the hill take a breath from her lungs

Toppin' it off, London, Germany

[Verse Five - Fish Scales]

Aight, first say a prayer for those in combat
Might can throw some'in' on a grill when you come back
Might can take a trip to the 'Ville

and in fact we can all get loose on the porch
And of course, hit Church Hill Downs, thow some'in' on
a horse
Or we can hit dem St. Clair waters
You ain't seen country til you been through Georgia
Gotdern, they still got girls in perms (Damn)
Big cars, big wheels is the biggest concern

[Verse Six - Ron Clutch]

In my old Kentucky home
I was born and raised on catfish and corn
Collard greens and fatbacks - it's country 'an a mug
Don't care where you stay you got country in your blood
if you love and that's that
Circle the globe, met the poor and the paid
Now I know for a fact that (we keep it crunk baby)

This for my thugs baby and for tha club baby
We keep it crunk, smokin' weed and gettin' drunk
