Standin' on the corner
Or in a street cafe
Dining down in Paris
Or hangin' out down Brooklyn Way

Doesn't really matter if you're not a millionaire
Stand around in Levi's, as long as you got flair

I've got it, you've got it, we've got it (Style)
He's got it, she's got it, they've got it (Class)
He's got it, she's got it, they've got it (Flair)
I've got it, you've got it, we've got it (Penache)

It's not the way you wear your hair down
Or the kind of clothes you choose
You can listen to Chaikovsky
Or get down to the blues!

Doesn't really matter if you're not a millionaire
Gucci shoes or sneakers, all you need is flair!

I've got it, you've got it, we've got it (Style)
He's got it, she's got it, they've got it (Class)
He's got it, she's got it, they've got it (Flair)
I've got it, you've got it, we've got it (Penache)

(Everybody's got some style
Everybody's got some class
Everybody's got some flair
Most people got no cash)

(Style)
(Class)
(Flair)
(Penache)

He's got it, she's got it, they've got it (Flair)
I've got it, you've got it, we've got it

Style!

Class!

I've got it, you've got it, we've got it (Style)
He's got it, she's got it, they've got it (Class)
He's got it, she's got it, they've got it (Flair)
