if you were Adam and I was evening
and if one morning and you were leaving
so many things the good have believed in
instead you go and off to fight for your freedom
but they were feeding your lies again
and throwing sand in your eyes again
put away all your city conventions
I just want to know your true intentions
put away all your plans and your schemes
I just want to know your hopes and your dreams
the water's deep, you just can't measure
a little bit of love is worth a whole lot of treasure
love, love, love
love, lo-o-ove
love, love, love
I'm singing sweet lo-o-o-o-ove
last night, I dreamt was a last day
there was a people parade
last night, I dreamt it was the end
everybody was a friend
and a minstrel was moving us all
as we danced out a great crystal ball
love, love, love
love, lo-o-ove
singing true love, love, love
everything you do
lo-o-o-o-ove
all I need love, love, love
singing true love, lo-o-ove
anything you do
love, love, love
lo-o-o-o-ove
love, love, love
love, lo-o-ove
love, love, love
