My feathered friends might fly away
And flowers faded, sad to say
But my love keeps waiting
Like a still I'm painting
My love is here to stay, yeah

Ooh ooh ooh ooh
Ooh ooh ooh ooh ooh ooh

Those beaming nights still dim today
And moonlight left or turned to grey
But my love keeps waiting
Like a still I'm painting
My love is here to stay

Please put me in your picture
Show me your true colours
You know that I'll miss you
And that I really, really love you, ooh ooh ooh

(My love is here to stay)
(My love is here to stay)
(My love is here) my love is here to stay
(My love is here) my love is here to stay
(My love is here) my love is here to stay
(My love is here) my love is here to stay, yea
Hey hey

Whoo, yeah

Birds and my baby will be home soon
And leaf and buds begin to bloom
In my point of view
I've been true to you
My love is here to stay

Ooh ooh ooh ooh
Ooh ooh ooh ooh ooh ooh

(My love is here to stay) every year
(My love is here to stay) every night and day

(My love, my love)
(My love, my love)

(My love is here to stay) my love is here to stay
(My love is here to stay) every night and day
(My love, my love) yeah
(My love) yeah, (my love) yeah

(My love is here to stay) together
(My love is here to stay) together
(My love) yeah, (my love) yeah
(My love) yeahhh (my love)
(My love is here to stay) every night and day
(My love is here to stay)
