When I was younger, standing on a hill
I was an empty space waiting to be filled
And you got a very fine nose
You got flowers in your toes...

And I live with the man I love who taught me all I know
Thank you, baby
And you had a lady who refuse to let you go
No, no, later
And you got a very fine nose
You got flowers in your toes...

Hey, everything is alright
When you're near me by my side
Ooh, everything is alright
Baby, and the moon is out of sight, out of sight...
Out of sight

Your spring is with us once again
Suckled by the breeze
Tended by the sun and the wind
Etched, waiting to please
And you got a very fine nose
You got flowers in your toes
Flowers in your toes
Flowers in your toes...
