Darling, can't you see
What losing you has done to me?
I'm not the same girl I used to be
Have a change of heart
Don't leave me standing in the dark
Don't let delusion keep us apart
Come back to me
And I'll guarantee
All the tenderness and love you'll ever need

This time I'll be sweeter
Our love will run deeper
I won't mess around
I won't let you down
Have faith in me

Since you've been away
I haven't seen the light of day
I'm lost without you, can't find my way
So won't you please be fair
And let me show how much I care
Say you'll be mine and answer my prayer
Come back to me
And I promise I'll be
Everything that's bright and new your whole life
through

This time I'll be sweeter
Our love will run deeper
I won't mess around
I won't let you down
Have faith in me
