I just want to let you know you make me happy  
I just want to let you know I feel so fine  
I need your presence 'round me  
Everywhere, all the time

[Linda Lewis:]

I just want to let you know you make me happy  
I just want to let you know I feel so fine  
I need your presence 'round me  
Everywhere, all the time

You really got to let me know  
Come on, show me the way to go

Your love shines like the sun to me  
It shines so bright that I can't see

[Linda Lewis:]

Your love shines like the sun to me  
Lighting up everything I want to be

Your love shines (your love shines)  
Your love shines

Where were you when I was feeling down?  
(I couldn't talk, I couldn't speak my mind  
And though I tried, and tried and tried)  
I was just missing having you around

You really got to let me know  
Come on, show me the way to go

You really got to let me know  
Come on, show me the way to go

Yourlove shines like the sun to me  
It shines so bright that I can't see

[Linda Lewis:]

Your love shines like the sun to me  
Lighting up everything I want to be

Your love shines (your love shines)  
Your love shines  
Your love shines  
Your love shines

(You really got to let me know  
Come on, show me the way to go)

You really got to let me know  
Come on, show me the way to go

Your love shines (your love shines)  
Your love shines (your love shines)

Your love shines like the sun to me  
It shines so bright that I can't see

[Linda Lewis:]  
Your love shines like the sun to me  
Lighting up everything I want to be

Your love shines (let your love shine)  
Your love shines (light me up and let my love shine)  
Your love shines (light me up and let your love shine)
