People like to talk about Sally
Ya know she's not that kind a girl
She wear them over size shirts on black skin tights
She don't have to ask for nothin'
Don't have to pay no mind
She gets anything she wants' cause she's better than
the rest

She jumped the boat
I jumped the gun
It's her and me and the settin' sun
Into her arms I love to love her so

She's fast and furious
Fast and furious
And loves so curious
She's fast and furious
Fast and furious
She make love so mysterious
When she's fast and furious

She's flat out runnin' on the fast track
She take you all around the world
Where there's smoke there's fire and that's a fact
The girl just loves to travel
Her feet never ever touch the ground
Ya better keep it up or your gonna be left behind

She jumped the boat
I jumped the gun
It's her and me and the settin' sun
Into her arms I love to lover her so

She's fast and furious
Fast and furious
And loves so curious
She's fast and furious
Fast and furious
She make love so mysterious
When it's fast and furious

Yeah people like to talk about Sally
But they don't know the girl
She's like a runaway train when she go all night
There's no way you can stop her
She's gotta hold the control
Her foot's to the floor when she rock and roll

She jumped the boat
I jumped the gun
It's her and me and the settin' sun
Into her arms I love to lover her so

She's fast and furious
Fast and furious
And loves so curious
She's fast and furious
Fast and furious
She make love so mysterious
When it's fast and furious
